

Quantel Medical Launches New Website

New website brings robust products and clinical information in a new sleek and user-friendly design.

CLERMONT-FERRAND, France – January 13, 2016 – [Quantel Medical](http://www.quantel-medical.com) (Quantel), a global ophthalmic medical device company dedicated to developing leading technologies to improve the diagnosis and treatment of ocular diseases, announces the launch of a fully redesigned website (www.quantel-medical.com). This new website provides comprehensive information about the company's products and their associated clinical advantages. The new design and enhanced navigation incorporate a brand-specific color scheme to build cohesiveness with Quantel Medical messaging. Simplified site navigation and enhanced search capability make it quick and easy for the visitor to find the appropriate product or application information to suit a wide range of ophthalmic therapeutic solutions.

Other website features include:

- Presentations, webinars, physicians' testimonials, tutorials, case studies, clinical articles and guidelines about Quantel Medical products to provide added value for the ophthalmic community.
- News and events, including a schedule of tradeshow participation across the globe, and information about Quantel Medical's latest innovative products.
- Convenient forms to request product pricing information, demos and brochures.
- Easy access to Quantel Medical's partners information worldwide
- Integrated LinkedIn and YouTube buttons to nurture improved communication with clients while linking them to the partners' portal (Extranet) for relevant internal information.

"With the redesign of our website, we hope to relaunch our commitment to providing cutting edge medical devices for the ophthalmic community. The new design reflects our intention to provide robust information for partners and media and be responsive to our customers' needs while serving to provide even more information for end users, specifically, the eye care community. We believe that this new website will allow our visitors to have a very informative experience as we continue to grow and increase our market presence," said Jean-Marc Gendre, CEO of Quantel Medical.

About Quantel Medical

Founded in 1993 and headquartered in Clermont-Ferrand, France, Quantel Medical is a global ophthalmic medical device company dedicated to developing leading technologies to improve the diagnosis and treatment of ocular diseases. Quantel Medical has a strong emphasis in research and development, resulting in many first-to-market product introductions and a comprehensive product portfolio of diagnostic ultrasound, surgical lasers and a range of disposable products for ophthalmologists. These products are available through direct sales operations in the U.S. and France, and through 80 independent distributors in over 110 countries. Quantel Medical is a division of Quantel (QUA:EN), a world-wide leader in the development of solid state lasers for scientific and industrial applications.
